

BELLO OLAMILEKAN OLAYINKA

SOFTWARE ENGINEER

Lagos, Nigeria | belloolamilekan661@gmail.com | +234 905 863 7198

Portfolio: <https://olamilekan-bello.vercel.app>

GitHub: <https://github.com/Olamilekan-12>

SUMMARY

Software Engineer with 3+ years of experience building production web and mobile applications with JavaScript, TypeScript and Go. Full-stack experience across Go and Node.js for backend services, React and Next.js for web applications, and React Native with Expo for mobile applications. Experienced with REST APIs, PostgreSQL, AWS, Terraform, real-time features, dashboards, payment flows and customer-facing products. Comfortable owning features end to end, from database design and backend APIs through frontend implementation, mobile applications and cloud infrastructure.

SKILLS

Languages: JavaScript, TypeScript, Go

Frontend: React, Next.js, TanStack Query, Zustand, Redux, Tailwind CSS, shadcn/ui

Mobile: React Native, Expo

Backend: Go, Node.js, Express, REST APIs, GraphQL, WebSockets

Databases and Search: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

AWS: Lambda, EC2, RDS, S3, API Gateway, Kinesis

Infrastructure and Engineering Tools: Terraform, Git, GitHub Actions, Docker, Jest, Cypress, Postman, k6, Grafana, Prometheus, Storybook

Integrations: Stripe, Twilio, Resend, Google OAuth, Google Maps, Google Analytics

EXPERIENCE

FULL-STACK SOFTWARE ENGINEER | PIKAGROUP | Lagos, Nigeria | 2025 - 2026

- Developed a peer-to-peer betting platform with Go powering backend services and APIs.

- Built frontend applications with Next.js for match browsing, betting interactions and platform workflows.
- Developed mobile application features with React Native and Expo.
- Built and integrated AWS infrastructure using Terraform.
- Worked across backend services, frontend applications, mobile features and cloud infrastructure.

FULL-STACK | AVANT TECH | Lagos, Nigeria | 2026

Avant Tech is a workforce and technology services company providing recruitment, staffing, background checks, payroll, business process outsourcing, staff management, training and custom software development.

- Developed application screens for Avant One, a customer experience platform for regulated industries, incorporating access control and audit trail requirements into the frontend.
- Developed the React frontend against PostgreSQL and implemented tenant-aware data access through PostgreSQL row-level security.

Stack: React, Supabase, PostgreSQL, shadcn/ui

FRONTEND SOFTWARE ENGINEER | SEND24 | Lagos, Nigeria | February 2025 – Present

Send24 is a same-day delivery platform covering all 36 states of Nigeria, with customer, vendor and business applications for shipment booking, tracking and delivery management.

- Developed the Next.js instant quote flow, calculating delivery quotes from pickup and destination addresses.
- Implemented map-based hub search using the Google Maps API.
- Developed shipment booking and tracking flows in Next.js, supporting the customer journey from booking through delivery tracking.
- Built responsive interfaces for customer-facing delivery workflows and business dashboards.

Stack: Next.js, React, TanStack Query, Google Maps API

FRONTEND SOFTWARE ENGINEER | DEVHEIT | Remote | 2024 - 2026

DevHeit is a software development and IT consulting company delivering web and mobile applications for businesses across public and private sectors.

- Developed scalable web applications for client projects.
- Implemented frontend features and integrated applications with backend APIs.
- Worked with modern JavaScript and TypeScript technologies across client projects.

SELECTED PROJECTS

AVANT ONE

<https://app.avantone.io/>

Customer experience platform for regulated industries.

- Developed the React frontend for a multi-tenant application.
- Implemented tenant-aware data access using PostgreSQL row-level security.
- Built application interfaces using shadcn/ui.

Stack: React, Supabase, PostgreSQL, shadcn/ui

GMPS

<https://dev.gmps.be/platform/matches>

Peer-to-peer betting platform with web and mobile applications.

- Developed backend services and APIs using Go.
- Built the web application with Next.js.
- Developed mobile application features using React Native and Expo.
- Provisioned and managed AWS infrastructure with Terraform.

Stack: Go, Next.js, React Native, Expo, AWS, Terraform

SEND24

<https://send24.co/>

Nationwide same-day delivery platform.

- Developed quote calculation, map-based hub search, shipment booking and tracking flows.
- Built customer-facing delivery workflows with Next.js and React.

Stack: Next.js, React, TanStack Query, Google Maps API

PAYDEET

<https://getpaydeet.com/>

Payment platform that helps businesses accept direct bank payments, generate payment links and monitor transactions through a merchant dashboard.

- Developed the frontend and integrated it with backend APIs.
- Worked with APIs powered by Node.js, AWS Lambda and API Gateway.

Stack: React, Node.js, AWS Lambda, API Gateway

EDUCATION

BSc, Computer Science
University of Lagos, Nigeria
2019 – 2024
